Inhalation If inhaled, remove to fresh air. Get medical attention immediately. Keep patient warm. Seek immediate medical advice

Skin Contact Wash with soap and water. Seek immediate medical advice

Eye Contact Immediately flush eyes with plenty of water for at least 15 minutes, keeping eyelids open check for and remove any contact lenses. Then consult a doctor

Ingestion Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Seek medical treatment

Most important symptoms and effects, both acute and delayed

Symptoms/Injuries after Inhalation May give off gas, vapor or dust that is very irritating or corrosive to the respiratory system. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

Symptoms/Injuries after Skin Contact Causes skin irritation

Symptoms/Injuries after Eye Contact Causes serious eye damage

Symptoms/Injuries after Ingestion Harmful if swallowed. May cause burns to mouth, throat and stomach.

Indication of any immediate medical attention and special treatment needed

General Information

Take off all contaminated clothing immediately. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.

Section 5: Fire-fighting Measures

Suitable extinguishing media	Product is not flammable. Use firefighting measures that suit the surrounding fire.
Unsuitable extinguishing media	None
Special hazards arising from the substance or mixture	If this product is involved in a fire, the following can be released: Magnesium oxides
Protective actions fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire.
Firefighting equipment/instructions	Self-contained breathing apparatus and full protective clothing must be worn in case of fire
Specific Methods	Use standard firefighting procedures and consider the hazards of the other involved materials.
General fire hazards	Nonflammable

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures	Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
Methods and materials for containment and cleaning up	Dispose of contaminated material as waste according to section 13
Environmental precautions	Do not allow product to reach sewage system or any water course.

Section 7: Handling and Storage

Precautions for safe handling	Put on appropriate personal protective equipment (see section 8) Do not get in eyes or on skin or clothing. Do not ingest. Keep in the original container or an approved alternative made from a compatible material, keep tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Conditions for safe storage, including any incompatibilities	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool well ventilated area, away from incompatible materials (see section 10) and food and drink. Store locked up. Section 8: Exposure Controls/Personal Protection

Occupational exposure limits

PRODUCT	COMPOSITION	ACCGIH TLV	OSHA PEL	NIOSH REL

Biological limit values No biological exposure limits noted for the ingredients.

Appropriate engineering controls If user operations generate dust, fumes, gas vapor, or miss use process enclosures local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Individual protection members, such as personal protective equipment

- Eye/face protection** Safety eyewear complying with an improved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dust. Recommended: Tightly-fitting goggles
- Skin protection**
 - Hand protection** Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier
 - Other** Wear perfect chemical resistant clothing
- Respiratory protection** If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.
- Thermal hazards** Wear appropriate thermal protective clothing, when necessary.
- General hygiene considerations:** The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment.
